

# 4MSX

4" Submersible motors on AISI 304

# subteck

60 Hz

n ≈ 3450 rpm

## Construction features

4" rewirable submersible motors filled with food grade dielectric fluid (USA FDA, European Pharmacopeia approved).

Motor housing, lower and upper support, made in s.s. AISI 304, external shaft in s.s. AISI 316, amply sized rubber equalization diaphragm.

4" NEMA standard, four conductors flat electric cable suitable for use in drinking water, 0.5-3.0 Hp length 2.0 mt, 4.0-7.5 Hp length 3.0 mt. Triple seal system on rotor shaft, bi-directional mechanical seal+radial seal + sand guard.

Single phase motors: PSC type (Permanent Split Capacitor)

Rotation: single phase motors, clockwise facing shaft end, three phase motors clockwise or counter clockwise without distinction.

All motors are 100% tested.

## Operation data

Power	: from 0.5Hp to 3Hp (from 0.37 to 2.2 kW) for single phase motors : from 0.5Hp to 7.5Hp (from 0.37 to 5.5 kW) for three phase motors
Rotation speed	: about 3500 rpm
Alimentation tension	: 220V Single phase, 220V – 380V – 460V three phase
Tension change	: max +6% min. -10%
Frequency	: 60Hz / 2 poles
Starting	: D.O.L.
N° of starting/h	: max 20
Water Temperature	: 35°C – 100°F
Horizontal operation	: up to 3Hp (2.2 kW)
Insulation	: class F
Protection	: IP 68
Continuos service	: yes
Cooling flow	: min. 0.8 mt/sec.
